

UI/UX Workshop

Date: 20th September 2025

Speaker: Ms. Cheryl

Overview: The UI/UX Hands-On Workshop introduced 40 participants to practical interface and user experience design using Figma. Participants learned key concepts such as wireframing, prototyping, layout design, and usability principles, while applying their knowledge through hands-on exercises. The workshop provided an interactive platform to develop digital design skills, enhance creativity, and build confidence in creating user-centered designs.
